InterCommunity School Based Health Centers do NOT replace your child's pediatrician. Instead, we work collaboratively with them and offer families immediate access to health care *during the school day*. Parents no longer have to leave work to drive their child to the pediatrician when they are sick, need a physical or have other health care needs. In addition, School Based Health Centers do not collect co-pays for services.

Parents, this is a wonderful resource for your children; register today!
