Items discussed:

District Reading and Math Data: Information shared regarding district reading unit assessments. Committee reviewed the text provided to students at various grade levels, corresponding questions/tasks for each reading assessment and rubrics used to score the unit assessments.

In the area of math the committee reviewed pacing guides, skills being addressed by each unit and questions, scoring process, feedback mechanism for unit assessments to support potential changes for the following school year and planning process for teachers after data is collected.

Winter data reviewed by school - questions that arose: Why is there a disparity between certain schools? Are rubrics being used in same manner - calibration of scoring? Where do students fall on F&P benchmark in comparison to the reading assessments? How does fluency data compare to math unit assessments? How is the time provided in the pacing calendar for “reteaching” being used? Do teachers have an opportunity to learn from their colleagues in other schools? What type of vertical work is being done throughout the district?

Discussed use of school visits by Superintendent and Deputy Superintendent, District Improvement Teams and Directors of Teaching and Learning as vehicles for monitoring teaching and learning.

Meeting adjourned at 6:30 p.m.
Respectfully submitted,
Dr. Amy F. Radikas

**Procedures for Censure:**

Prior to any vote to censure a Board Member for cause:

1. The Board may review the performance and/or conduct of the Board member in open or executive session (as determined by the Board and the Board member) prior to taking any formal action.
2. If the Board determines that formal action is necessary, the Board shall be provided with reasonable notice of the Board's intent to consider possible censure (such notice to be given in writing after being authorized by Board vote at a prior meeting of the Board).
3. A vote to censure a Board member shall only take place at a regular meeting or a special meeting called for that purpose.
4. Such censure may be enacted for cause by a majority vote of all Board members.
Section 20 - Board of Education Updates and Self-Evaluation

The Board of Education shall receive annual updates on the following updates:

- Buildings / Maintenance
- Technology
- Teacher and Administrator Evaluation
- Teaching and Learning
- Pupil Services

The Board of Education shall conduct a formal self-evaluation on a bi-annual basis.

The Board of Education shall review the mission and vision of Manchester Public Schools every three years.

ARTICLE IV

Section 3- Conflicts of Interest.

Conflicts of Interest are not, in and of themselves, a sign of unethical or improper conduct. They are an innocent consequence of the fact that, outside of their service to the Town, Members of the Board of Education possess a wide array of professional pursuits, financial interests and personal relationships. However, it is expected that Members of the Board of Education will be acutely sensitive to the existence of possible Conflicts of Interest and, when a possible Conflict of Interest arises, that they will conduct themselves in a manner that will eliminate any question as to the integrity and impartiality of the Manchester Board of Education.

Members of the Board of Education that are deemed to have a Conflict of Interest shall be subject to and abide by the following standards of conduct:

a) Any Member of the Board of Education having a Conflict of Interest with respect to any matter to be acted upon or coming before the Board of Education shall make a full disclosure of that interest and shall consider whether the Conflict of Interest rises to the level that the Member feels that he or she cannot render an objective and impartial decision and therefore shall disqualify himself or herself from participating in any deliberation and decision making with respect to that matter.

b) A Member of the Board of Education with a Conflict of Interest shall not directly participate in the delivery of any Board of Education service, nor attempt to influence anyone concerning the delivery of services, to that particular person or Business that gives rise to the Conflict of Interest.

Section 7 - Incompatible Employment.

While engaged in the performance of their official duties, Members of the Board of Education owe a duty of undivided loyalty to the interests of the Board of Education and the Manchester school system. Therefore, no Member of the Board of Education shall engage in or accept private employment or render services for a Person or Business when he knows or has reason to know that such employment or service could impair his or her independence of judgment in the performance of his or her official duties, or possibly require him to disclose confidential information acquired by him in the course of his or her official duties, or possibly require him to take any other action which might be antagonistic to the interests of the Board of Education and the Manchester school system.

Section 10 - Use of Town or Board of Education Property, Assets and Resources.

Town-owned or Board of Education-owned equipment, supplies, property, labor and resources shall be used only for the conduct of approved Town business. No Member of the Board of Education shall
knowingly use or permit the use by others of Town property or Board of Education property for personal convenience or personal profit. However, Members of the Board of Education may use Town property or Board of Education property, assets and resources to the extent they are made available to the public generally or to the extent that such use is consistent with established policies and procedures governing the use of Town owned or Board of Education-owned vehicles or communication devices.

Section 11 - Former Members of the Board of Education.

A person who has served at any time as a Member of the Board of Education shall not appear before the Board of Education on behalf of any person or Business (other than himself or a Close Relative) until at least twenty-four (24) months have passed from the termination of his or her elected service on the Board. A person who has served at any time as a member of the Board of Education shall not privately lobby on behalf of any person or in any way attempt to influence the judgment or decision of any Member of the Board of Education on behalf of any person or Business (other than himself or a Close Relative) until at least twenty-four (24) months have passed from the termination of his or her elected service on the Board. Nothing in this restriction shall be construed to inhibit a former Board Member's right to publicly express his or her personal views upon an issue before the Board of Education or advocate on his or her own behalf for a particular decision on a matter before the Board of Education.

A person who has served at any time as a Member of the Board of Education shall not represent anyone other than the Board of Education concerning any particular matter in which he or she participated personally and substantially while serving as a Member of the Board of Education.

Section 12 - Censure

The Board of Education may, by Resolution of Censure, express its sense that the conduct of one or more of its Members has not conformed to these Standards of Ethical Conduct.

Upon a written request to the Chairman containing the full text of the Proposed Resolution of Censure and no less than seven (7) signatures of the Members of the Board, the Board shall consider such Resolution of Censure. All Members of the Board, including any Member who is the subject of the Resolution of Censure, may be heard on the question. Passage of the Resolution of Censure shall require a unanimous vote of all members present and eligible to vote. Any Member who is the subject of a Resolution of Censure shall not be permitted to vote on the question.

A Resolution of Censure shall not be in order, and shall not be considered under any circumstances, while a hearing, investigation, prosecution, or any other proceeding arising from the same conduct is pending before the Ethics Commission of the Town of Manchester or before any other agency,
Section 13: Use of the Board of Education-Issued Devices

In order to avoid unnecessary copying and printing, to reduce the district’s printing and copying costs, and to make information readily available electronically for all Board members, the Manchester Board of Education ("Board"), are issued device tablets devices. While the use of the devices promises to increase efficiency, reduce costs and help in preserving the environment, Board members have an obligation to comply with the Freedom of Information Act (the "FOIA"), Conn. Gen. Stat. §§ 1-200 through 1-241, which represents Connecticut’s commitment to open government and a strong policy in favor of public access to meetings and records.

The following guidelines govern the use of the Board of Education-issued devices by Board members:

1. The devices are the property of the Manchester Board of Education. Accordingly, the devices may only be used for Board-related business. Board members should not have any expectation of personal privacy with regard to the use of the devices. Personal and/or private use of the devices is prohibited. The devices are to be used only by Board members, and not by any other persons. Board members may not download and/or utilize any applications, software or any program onto the devices for personal and/or private use.

2. All information contained on any device (including, but not limited to e-mails or other interactive communications) is subject to disclosure under the FOIA, unless a specific statutory exemption applies to such information.

3. The devices should not be used for the transmission and/or storage of confidential or privileged materials (including, but not limited to, materials that will be discussed in executive session).

4. Personal and/or private e-mail accounts are not to be loaded onto or accessed through the devices. Any and all emails sent by way of an device must be sent through the Manchester Board of Education email system. In addition, Board members should not use private email accounts to conduct public business, whether through use of the device or otherwise.

5. Any type of interactive communications or series of communications (including in person communications, telephonic communications and electronic communications of any sort) relating to school district business and involving a quorum of the Board or a committee of the Board will likely be deemed to constitute a "meeting" under the FOIA. Such communications violate the provisions of the FOIA for several reasons, including the failure to post notice of the meeting and the failure to allow access to the meeting by members of the public. Accordingly, Board members must take care to ensure that their
interactive communications, via device or otherwise, do not constitute a meeting under the FOIA.

6. Board members are prohibited from sending or receiving electronic messages through the device or otherwise during Board meetings and committee meetings.

7. Board members must take care to safeguard the devices. Board members may be held financially responsible for the loss of or damage to an device.

8. In order to protect the security of information contained in the device, each Board member shall be issued a password by the district for the use of the device. Such passwords will not be modified by Board members.

Section 14 - Reimbursement of Board Members' Expenses

1. Remuneration
   a. A member of the Manchester Board of Education shall receive no compensation for carrying out Board services.

2. Reimbursement
   a. Board members authorized to attend educational conferences, meetings or travel on board business shall be reimbursed, upon submitting vouchers and supporting documentation for reasonable expenditures, transportation costs, and registration fees. Board members must have approval in advance from the Board to be eligible for a reimbursement.
   b. Each Board member that receives prior authorization for reimbursement of a Board of Education expense is expected to account for all expenditures incurred in connection with the performance of his/her Board duties.
   d. Receipts in general are required for:
     i. Lodging -- Lodging accommodations should provide normal comforts and services well located in relation to the area in which Board business will be conducted.
     ii. Meals -- Reasonable expenditures are allowed for meals (IRS recommended guidelines). Board members may submit appropriate explanatory information as needed, on a separate sheet of paper attached to the receipt. The Board will not reimburse Board members for the purchase of alcohol.
     iii. Taxi or Bus Fare
     iv. Parking Fees or Toll Charges (when applicable)

3. Registration Fees -- The Board will not pay any late registration fees without an explicit prior authorization.
The Manchester Public Schools curriculum and programs are designed to produce optimal student achievement for students Pre K–12 and beyond. Based on a shared vision and mission, best practices in planning, instruction and assessing are implemented to accomplish excellence in all areas of student development. The evaluation of the MPS instructional program emphasizes the role that standards and curriculum frameworks play to inform curriculum development and outlines a five-year curriculum review process to ensure the curriculum is rigorous, achievable and aligned to the vision of the district. Professional staff, including outside consultants will support the review and continual revision of curriculum and programs. The Superintendent and/or designees will inform the Board regarding new and revised curriculum and programs as it relates to the cycle of revision and evaluation.

**Administrative Regulations**

**Defining Curriculum**
Curriculum is defined broadly as the academic content taught in schools and within specific courses. Curriculum identifies the concepts; knowledge and skills students in a specific grade/academic discipline should know and be able to do as a result of their educational experience. A Manchester Public Schools curriculum document includes the national or state standards students will work toward, the units that teachers teach, the instructional pedagogy appropriate to the course or discipline, the learning materials used in the course, and various forms of assessment that provide evidence of student progress toward meeting course expectations. It is recommended that curriculums include Assured Learning Experiences (ALEs). The ALEs are common experiences that students engage in to demonstrate their progress in attaining the learning standards identified in the course.

**The Role of Standards and Curriculum Frameworks**
National and state standards inform the curriculum writing process. These standards are used as a foundation for MPS leaders to make decisions about what to include in an individual curriculum so that students can achieve the standards identified for a particular course or grade level. In addition to standards, curriculum frameworks are published by professional organizations representing the various academic disciplines and by the State Department of Education. Curriculum frameworks serve as an important influence for curriculum development as they provide a vision for the learner in each academic discipline as well as guidance on ways to implement standards through the use of highly effective pedagogical practices. Frameworks often provide a description of the standard at each grade level, or grade-level band, and snapshots of grade-level instructional practice. Curriculum frameworks also typically include suggestions for connections across and between courses and themes that can be used in instruction. Using standards and curriculum frameworks, curriculum writers have a wealth of information to guide the development of local curriculum documents that meet the needs of students.

**Curriculum Design: Writing & Revision Process**
The district’s curriculum continually evolves to meet the needs of a changing society. The curriculum writing and/or revision process may initiate from a variety of sources including:
(1) newly adopted state and/or national standards (as was the case with CT’s adoption of the Common Core State Standards, Next Generation Science Standards, and new PreK-12 social studies and arts standards)
(2) the five-year curriculum review process from which needs for curriculum revision emerge,
(3) requests for new or revised courses through the district’s course request process, or
(4) the needs and interests of students and the community.

Key questions guide the curriculum writing process. These questions include, “what are the appropriate national or state standards for this course?”, “what are the concepts and understanding students should address in this course?”, “what are the most effective ways to structure learning experiences?”, and “what are the most effective ways to assess learning?”. The graphic below outlines this iterative process.

**Five-Year Curriculum Review**

The curriculum review process provides all PreK-12 departments with a consistent format and tools to review and assess curriculum on a regular basis. The entire PK - 12 program of all content area departments and related services programs are reviewed during the same year on a five-year cycle. The Curriculum Review process is based on five core indicators of effective curriculum design:

<table>
<thead>
<tr>
<th>Indicator 1: Content Skills and Understandings</th>
</tr>
</thead>
<tbody>
<tr>
<td>What students are expected to know, understand, and be able to do is clearly defined, meaningful, focused on fundamental and relevant knowledge and skills necessary to succeed in a global community, and reflect high expectations for all.</td>

</tbody>
</table>

<tbody>

</tr>
</tbody>

<tbody>
<tr>
<td>Key cognitive learning experiences (i.e., specific pedagogical strategies or instructional tasks) that help learners perceive, process, rehearse, store, and transfer new learning; tasks that create authentic experiences for all students to demonstrate proficiency with content and understandings specified; tasks that promote coherence and alignment across grades/courses and reflect high expectations for all students.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Indicator 4: Assessment and Data</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
</tr>
</tbody>
</table>
Measures of content knowledge, process skills, and understandings; the specified assessments provide a means to determine the level of student learning as delineated in the curriculum documents. Both formative and summative assessments are specified, aligned, and represent high expectations.

**Indicator 5: Curriculum Alignment**
Reflects a clear match between the written curriculum, taught curriculum, and tested curriculum (including local and state assessments) consistent with external and internal standards, assessments, and best practices, creating coherence within and across the grades.

Curriculum reviews are done on a five-year cycle. The first and most critical phase in the process is a self-assessment. A group representing PreK-12 educators work as a vertical team to complete an assessment of the district curriculum in a content area. The goal of the self-assessment is to provide an in-depth reflection of the status of curriculum. The self-assessment is framed by guiding questions for each of the five indicators named above. Following the self-assessment, a subset of the vertical team presents its findings to the district’s Office of Curriculum, Instruction, and Assessment.

The next phase of curriculum review is implementation. Based on the self-assessment and feedback of the Office of Curriculum, Instruction, and Assessment vertical team leaders will prioritize areas of focus and define action steps within department and district development planning.

Following the curriculum review process, vertical teams address identified department priorities by developing and monitoring long-range plans for curriculum implementation. Action steps taken may include:

- Utilizing the self-assessment as well as feedback from the Office of Curriculum, Instruction, and Assessment to develop and monitor short and long-term strategic actions for curriculum implementation.
- Making recommendations to address professional learning needs.
- Ensuring and articulating vertical alignment of curriculum, instruction, and assessment (e.g., vocabulary, mathematical discourse) within each content area.
- Analyzing district-wide data to monitor outcomes and ensure effectiveness of curriculum implementation and professional learning.
- Soliciting feedback and respond to changes in a timely manner (e.g. new research, state mandates).
- Establishing ad hoc groups to address issues, challenges, or needs identified by the vertical team.

Each year, the Directors of Teaching and Learning shall submit end-of-year reports to the Deputy Superintendent summarizing their actions to implement and monitor curriculum and to support
teachers’ professional learning. These reports, along with student performance data and feedback from the Office of Curriculum, Instruction, and Assessment inform plans for the subsequent school year.

Indicator 1: Content, Skills and Understandings: What students are expected to know, understand and be able to do is clearly defined, meaningful, culturally relevant and responsive, focused on fundamental and relevant knowledge and skills necessary to succeed in a global community, and reflects high expectations for all students.

The district/school/department mission is effectively reflected in the selection of content and skills. There is clear and compelling evidence that state and/or national standards were used and/or prioritized to determine what students should know, understand and be able to do. A common language is articulated accurately and it reflects accepted practice within the discipline and/or current educational research and promotes the work of the discipline. Effective 21st century skills are integrated (embedded) throughout the curriculum in order to promote college and career readiness (flexibility and adaptability, initiative and self-direction, social and cross cultural skills, productivity and accountability, and leadership and responsibility), including problem solving, communication (communicating clearly, collaborating with others), critical thinking (reasoning effectively, using systems, thinking, making judgments and decisions), and adaptability. The specified content, skills and understandings provide opportunities to have student learning extend beyond the curriculum.

Indicator 2: Maps, Units and Pacing Guides Development: The written documents per grade include key required components, including the scope or breadth of material (how much of what is to be taught/should be taught at that particular level within that particular context) and the sequence (the succession of when the information is presented) and how (i.e., spiral, systematic, selective emphasis), providing an articulated curriculum across the grades.

Comprehensive curriculum maps, units and pacing guides that define common expectations by grade level and course have been developed across the discipline. Maps are used by teachers to guide and sequence instruction where key content knowledge and skills, assessments and assured instructional experiences are evident. The units of study, with priority standards and supporting standards that are aligned with and are “unwrapped,” are clearly identified. The units of study also detail the big ideas, essential questions, pre- and post-assessments, key vocabulary, interdisciplinary connections, 21st century learning skills, learning activities, and high-impact instructional strategies that address differentiation, enrichment and intervention (Ainsworth, 2010). The curriculum is balanced (i.e., appropriate amounts per grade, appropriate across the grades and increasingly rigorous—content is not over or under emphasized). A pacing guide is used by teachers for implementing the units of study to ensure all priority standards are taught, assessed, re-taught, and reassessed over the course of the school year (Ainsworth).

**Indicator 3: Assured Learning Experiences**: Key cognitive learning experiences (i.e., specific pedagogical strategies or instructional tasks) that help learners perceive, process, rehearse, store and transfer new learning or tasks that create authentic experiences for all students to demonstrate proficiency of the grade level content and understandings are specified. These tasks promote coherence and alignment across the grades/courses and reflect high expectations for all students.

The assured learning experiences are specified in the curriculum, including learning experiences that differentiate, bringing meaning to the content, standards and skills. Assured learning experiences employ best practices and reflect effective teaching strategies and standards for dynamic teaching that is student-centered, skillful, data-driven, engaging, reflective and collaborative, and personalized. Assured learning experiences are aligned with curriculum and assessments, reflect the standards and are highly engaging. Specified teaching strategies lead all students to understanding and promote high levels of performance.

Indicator 4: Assessment/Data: Given the need to measure content knowledge, process skills and understandings, the specified assessments provide the means to determine the level of student learning as delineated in the curriculum documents. Both formative and summative assessments are specified, aligned and represent high expectations.

Key assessments must be aligned with standards as well as be common across the school system. Assessment criteria are used to link/align assessments to standards. For common assessments, levels of performance are defined (e.g., proficiency, mastery) by stated criteria and exemplars are available to teachers. A range of assessments are represented (formative, interim, summative). Assessments should be varied in order to measure depth of knowledge, level of understanding and the ability to apply concepts in unique or practical settings. Finally, assessment data are collected, analyzed and used to assess student learning and inform Curriculum, Instruction and Assessment revisions.

Indicator 5: Curriculum Alignment: There is a clear match between the written curriculum, taught curriculum and tested curriculum (including local and state assessments) that is consistent with external and internal standards, assessments and best practices, creating coherence within and across the grades.

Curriculum alignment refers to the examination of the match between the written curriculum, taught curriculum and tested curriculum (including local assessment and state assessments). An aligned curriculum represents a curriculum that is consistent with external and internal standards, assessments and best practices. The curriculum is aligned between local learning expectations and state assessments, between local assessments and learning outcomes. Assessment is aligned with the written and taught curriculum.

Recommendation:

1. The Manchester Board of Education approve and adopt the attached educational specifications dated January 9, 2019 for a roof replacement at Manchester Regional Academy.
EDUCATIONAL SPECIFICATIONS FOR THE ROOF REPLACEMENT AT MANCHESTER REGIONAL ACADEMY
January 9, 2019

SECTION I – PROJECT RATIONALE
Manchester Regional Academy was constructed in 1976. A sheet metal style roof was installed over the original roof in 1997. The roof has reached its useful life. The 21,600 square feet of roof area requires replacement over the original building. Select portions of the roof have been leaking and managing the leaks during the past three years has become less effective.

SECTION II – LONG RANGE EDUCATIONAL PLAN
The primary goals of the Manchester School District are:
1. To improve the health and safety conditions of all schools.
2. To upgrade the school building to meet and exceed all applicable codes
3. To incorporate current technology into the classroom curriculum and build in infrastructure to support future technology.
4. To support education and creativity, student, and teachers must be in appropriate facilities and space.
5. To make alterations and modifications that are energy efficient, durable and conducive to ongoing maintenance.
6. To promote community accessibility to school facilities.
7. To improve accessibility for the disabled.

SECTION III – PROJECT’S RELATION TO EDUCATIONAL GOALS
To maintain an environment conducive to learning while eliminating the risk to health and safety that would result from a defective roof.

SECTION IV – CAPACITY DATA
The reroofing of this building will not alter the building’s capacity.

SECTION V – LEARNING ACTIVITIES
The reroofing of the school will not increase or decrease instructional group size, number of teaching stations, number of individual learning stations or specialized instruction.

SECTION VI – THE PROJECT
The Manchester School District proposes the following components of its roof replacement project:
1. Test and identify for any hazardous materials in existing roofing system and adjacent construction.
2. Remove all roofing materials down to the deck and dispose of hazardous materials in the appropriate manner.
3. Inspect roof deck and replace problem areas as appropriate.
4. Install new insulation with 30 year 90 mil EPDM roofing system.
5. Install downspouts and gutters as necessary.
6. Install new metal flashings at all intersections.
7. Repair any masonry surfaces adjoining roof materials to prevent moisture migration.
