**Action:** Approval of the State Department of Education Addendum to Agreement for Child Nutrition Programs (ED-99) - Healthy Food Certification Statement for 2019-2020 that includes the Healthy Food Option and the Exemption for Food Items.  

**RECOMMENDED MOTION:** Move to approve that pursuant to C.G.S. Section 10-215f, the Manchester Board of Education certifies that all food items offered for sale to students in the schools under its jurisdiction, and not exempted from the Connecticut Nutrition Standards published by the Connecticut State Department of Education, will comply with the Connecticut Nutrition Standards during the period of July 1, 2019, through June 30, 2020. This certification shall include all food offered for sale to students separately from reimbursable meals at all times and from all sources, including but not limited to, school stores, vending machines, school cafeterias, and any fundraising activities on school premises sponsored by the school or by non-school organizations and Groups.

*If the Manchester Board of Education votes “yes” for the healthy food option, Manchester Board of Education must also vote “yes” or “no” on whether to allow food exemptions.*

**RECOMMENDED MOTION:** Move that the Manchester Board of Education will allow the sale to students of food items that do not meet the Connecticut Nutrition Standards provided that the following conditions are met: 1) the sale is in connection with an event occurring after the end of the regular school day or on the weekend; 2) the sale is at the location of the event; and 3) the food items are not sold from a vending machine or school store. An “event” is an occurrence that involves more than just a regularly scheduled practice, meeting, or extracurricular activity. For example, soccer games, school plays, and interscholastic debates are events but soccer practices, play rehearsals, and debate team meetings are not. The “regular school day” is the period from midnight before to 30 minutes after the end of the official school day. “Location” means where the event is being held.

**Action:** Approval of an increase in school lunch pricing by $.10 (10 cents) at all schools.

**RECOMMENDED MOTION:** Move that the Manchester Board of Education approve a $.10 cent increase in 2019-2020 school lunch prices at all schools increasing prices to $2.45 for elementary schools, $2.70 for middle schools and $2.85 for the high school.

Manchester Board of Education
Personnel & Finance Committee Report
May 13, 2019

Attendees: Committee Members Chris Pattacini, Deborah Hagenow, and Scott Hughes; Superintendent, Matthew Geary; and Director of Finance & Management, Karen Clancy

Also in attendance: Nick Aldi, Food Services Director

Mr. Aldi provided the committee with information relative to equity in paid lunch pricing. This information is reviewed and calculated annually based on State Department of Education guidance. School districts are required to adjust their lunch prices if they charge less than the target weighted average price for paid lunches. Therefore it is recommended that the Board of Education approve an increase of .10 cents in lunch prices for 2019-2020.

Mr. Aldi provided a breakfast price comparison between local school districts and districts within our District Reference Group. Manchester charges $1.00 for elementary and middle school breakfast and $1.25 for high school breakfast. We rank very low on the list. We have not had a breakfast price increase in years. It is recommended that the Board of Education approve an increase in breakfast prices by .25 cents at each level.

Mr. Aldi presented the committee with the annual Healthy Foods Certification which will be brought to the Board of Education for approval at the June 10, 2019 meeting. This annual requirement certifies that all food sold to students separately from reimbursable meals will meet the Connecticut Nutrition Standards.

The committee discussed the status of the Community Eligibility Provision that is currently operating at the Manchester Preschool Center, Martin, Verplanck, Waddell and Washington Elementary Schools. This provision provides for free lunch for all students at these school locations. It is recommended that we recertify at the same locations for 2019-2020 with the exception of Washington Elementary School due to its closing. In the Spring of 2020, we will review for a possible expansion of the program for the following school year.

Mr. Geary and Mrs. Clancy provided the committee with a proposal from Dattco for a possible change in bell times for 2019-2020. This proposal was made to improve the timeliness of buses to the schools. More information will be forthcoming.

Mrs. Clancy updated the committee on the status of the open Facilities Director position. At this time we will not be posting for the open position and will continue to manage the workload and update the Board of Education.

The next Personnel & Finance Committee meeting is scheduled for Monday, October 7, 2019, at 5:30 p.m. at Bowers Elementary School.

Respectfully Submitted,

Karen L. Clancy

TO: Sponsors of the National School Lunch Program

FROM: John D. Frassinelli, Chief
       Bureau of Health/Nutrition, Family Services and Adult Education

DATE: January 28, 2019

SUBJECT: Operational Memorandum No. 05-19
Process for Submitting the Healthy Food Certification (HFC) Statement for
School Year 2019-20

This memo summarizes the requirements for submitting the 2019-20 HFC Statement to the
Connecticut State Department of Education (CSDE). It also provides information on the
Connecticut Nutrition Standards (CNS), HFC resources, and state beverage requirements.

Annual HFC Statement
Section 10-215f of the Connecticut General Statutes (C.G.S.) requires that each local board of
education or governing authority for all Connecticut public school districts participating in the
National School Lunch Program (NSLP) must take action annually to certify whether all food
items sold to students separately from reimbursable meals will or will not meet the CNS. This
includes all public schools, regional educational service centers, the Connecticut Technical High
School System, charter schools, interdistrict magnet schools, and endowed academies.

For school year 2019-20, the HFC period is July 1, 2019, through June 30, 2020. All public
school districts participating in the NSLP must submit the online Healthy Food Certification
Statement (Addendum to Agreement for Child Nutrition Programs (ED-099)) by July 1, 2019.
The vote by the board of education or governing authority on whether to participate in HFC must
occur by July 1, 2019, or the district is ineligible for HFC during school year 2019-20.

HFC Application Process for 2019-20
The annual HFC Statement will be completed online in the CSDE’s Online Application and
Claiming System for Child Nutrition Programs (CNP System), as part of the district’s 2019-20
application module for the U.S. Department of Agriculture’s (USDA) Child Nutrition Programs.
The 2019-20 module is expected to be available in the CNP System in May 2019. The CSDE
will notify sponsors when the module is open and the HFC application module becomes
available.

In the meantime, public school sponsors of the NSLP must follow the procedures below to
ensure timely submission of the 2019-20 HFC Statement by the deadline of July 1, 2019.

1. Schedule the HFC votes at a meeting of your board of education or governing authority
   that occurs before June 30, 2019. The board of education or governing authority for each
   public school that participates in the NSLP must vote “yes” or “no” on whether to
implement the healthy food option, i.e., follow the CNS for all foods sold to students separately from reimbursable meals. The motion and meeting minutes for the healthy food option should include the specific criteria for the healthy food option required by C.G.S. Section 10-215f, as indicated below.

- **Healthy food option:** Pursuant to C.G.S. Section 10-215f, the board of education or governing authority certifies that all food items offered for sale to students in the schools under its jurisdiction, and not exempted from the Connecticut Nutrition Standards published by the Connecticut State Department of Education, will comply with the Connecticut Nutrition Standards during the period of July 1, 2019, through June 30, 2020. This certification shall include all food offered for sale to students separately from reimbursable meals at all times and from all sources, including but not limited to, school stores, vending machines, school cafeterias, and any fundraising activities on school premises sponsored by the school or by non-school organizations and groups.

If the board of education or governing authority votes “yes” for the healthy food option above, the board of education or governing authority must also vote on whether to allow food exemptions. The motion and meeting minutes for food exemptions should include the specific criteria for food exemptions required by C.G.S. Section 10-215f, as indicated below. Note: If the board of education or governing authority votes “no” for the healthy food option above, a vote on whether to allow food exemptions is not required.

- **Food exemptions:** The board of education or governing authority will allow the sale to students of food items that do not meet the Connecticut Nutrition Standards provided that the following conditions are met: 1) the sale is in connection with an event occurring after the end of the regular school day or on the weekend; 2) the sale is at the location of the event; and 3) the food items are not sold from a vending machine or school store. An “event” is an occurrence that involves more than just a regularly scheduled practice, meeting, or extracurricular activity. For example, soccer games, school plays, and interscholastic debates are events but soccer practices, play rehearsals, and debate team meetings are not. The “regular school day” is the period from midnight before to 30 minutes after the end of the official school day. “Location” means where the event is being held.

For more information, see the CSDE’s handout, *Exemptions for Foods and Beverages in Public Schools.*

2. Conduct the HFC votes at the scheduled meeting of the board of education or governing authority. **Maintain a copy of the meeting minutes** indicating the results of the HFC votes for the healthy food option and food exemptions, as outlined in step 1.

- The meeting minutes must indicate whether the board of education or governing authority voted “yes” or “no” to implement the healthy food option, and must include the specific language for “Healthy food option” in step 1.
• If the board of education or governing authority voted “yes,” for the healthy food option, the meeting minutes must also indicate whether the board of education or governing authority voted “yes” or “no” to allow food exemptions, and must include the specific language for “Exemption for food items” in step 1.

3. In May 2019, when the CSDE notifies districts that the HFC application module is available, complete the online HFC application module and upload the meeting minutes indicating the results of the HFC vote. Note: The CSDE will e-mail school nutrition programs when the 2019-20 HFC application module of the CNP System is available. Instructions on how to access the HFC application module will be provided at that time. Please do not access the CNP System prior to receiving this notification from the CSDE.

For additional guidance on the HFC application process, review the CSDE’s presentation, Application Procedures for HFC, and visit the “Apply” section of the CSDE’s HFC webpage.

Interschool Agreements for HFC Schools
A public school or district (recipient site) that receives meals under contract from a HFC district (providing sponsor) can choose to certify for the healthy food option and follow the CNS for all foods sold to students separately from reimbursable meals. This must be indicated in section 3 of the Full-service Interschool Agreement Form between the recipient site and the providing sponsor district.

In order for the providing sponsor to receive HFC payments for any recipient sites, the interschool agreement must be submitted to the CSDE by July 1, 2019. If the CSDE receives the interschool agreement after this date, the CSDE will not include the recipient site’s lunch counts in the total number of reimbursable lunches used to determine HFC payments for school year 2019-20. For more information, see CSDE Operational Memorandum No. 4-19: Interschool Agreements for School Year 2019-20.

Schools must submit hard copies of the interschool agreements to the CSDE. Interschool agreements are not submitted through the CNP Online System. The interschool agreements for school year 2019-20 are available in the “Interschool Agreements” section of the CSDE’s Forms for School Nutrition Programs webpage.

Connecticut Nutrition Standards (CNS)
The CSDE did not make any changes to the CNS for school year 2019-20. For a summary of the CNS, see the CSDE’s handout, Summary of Connecticut Nutrition Standards for Foods in Schools. Additional information on the CNS is available on the CSDE’s CNS webpage. The CSDE’s HFC webpage provides numerous resources to assist districts with implementing HFC including:

• Requirements for Foods and Beverages in School Stores in Public Schools Choosing HFC.

State Beverage Requirements
As a reminder, the beverage requirements of C.G.S. Section 10-221q apply to all public schools, regardless of whether the district certifies for the healthy food option of HFC under C.G.S. Section 10-215f. This includes all public school districts, interdistrict magnet schools, charter schools, endowed academies, and the Connecticut Technical High School System. Additional information on the beverage requirements is available on the CSDE’s Beverage Requirements webpage.

C.G.S. Section 10-221q addresses requirements for the sale of beverages to students in public schools, and allows exemptions if beverage sales meet specific conditions. Beverage exemptions are not part of the annual HFC Statement, which applies only to food sales. If a public school district chooses to allow beverage exemptions, the CSDE recommends that the board of education or governing authority conducts the vote on beverage exemptions at the same time as the HFC vote. If the district does not have a beverage exemption in place, noncompliant beverages can never be sold to students on school premises.

The motion and meeting minutes for beverage exemptions should include the specific criteria for beverage exemptions required by C.G.S. Section 10-221q, as indicated below.

• Exemptions for beverages: The board of education will allow the sale to students of beverages not listed in Section 10-221q of the Connecticut General Statutes provided that the following conditions are met: 1) the sale is in connection with an event occurring after the end of the regular school day or on the weekend; 2) the sale is at the location of the event; and 3) the beverages are not sold from a vending machine or school store. An “event” is an occurrence that involves more than just a regularly scheduled practice, meeting or extracurricular activity. The “school day” is the period from midnight before to 30 minutes after the end of the official school day. “Location” means where the event is being held, and must be the same place as the beverage sales.

Exemptions for Foods and Beverages in Public Schools

This document summarizes the requirements for allowing food exemptions under Healthy Food Certification (HFC), mandated by Section 10-215f of the Connecticut General Statutes (C.G.S.); and the requirements for allowing beverage exemptions in public schools, mandated by C.G.S. Section 10-221q. It also provides sample motion language for the board of education or governing authority’s votes to allow food exemptions and beverage exemptions.

Each public school sponsor of the National School Lunch Program (NSLP) must complete their annual HFC Statement (Addendum to Agreement for Child Nutrition Programs (ED-099)) online in the Connecticut State Department of Education’s (CSDE) Online Application and Claiming System for Child Nutrition Programs (CNP System), as part of the sponsor’s application module for participation in the U.S. Department of Agriculture’s (USDA) Child Nutrition Programs. When submitting the annual HFC Statement, each public school NSLP sponsor must upload their board of education or governing authority’s meeting minutes, indicating the results of the HFC votes for:

- participating in the healthy food option of HFC; and
- allowing exemptions for sales of foods that do not comply with the Connecticut Nutrition Standards (CNS).

The language in the meeting minutes must reflect the specific criteria required by C.G.S. Section 10-215f for participating in the healthy food option of HFC and allowing food exemptions. For more information on the HFC application process, visit the “Apply” section of the CSDE’s HFC webpage.

In addition to the HFC votes, the CSDE strongly encourages districts to vote on beverage exemptions at the same time, and to include language in the meeting minutes that reflects the specific criteria for beverage exemptions required by C.G.S. Section 10-221q. For more information, see “Beverages” on page 3.

Food Exemptions

HFC requires each board of education or governing authority for all public schools participating in the NSLP to certify annually to the CSDE whether they will follow the CNS for all foods sold to students separately from reimbursable meals in the USDA’s school nutrition programs. The CNS applies to all competitive foods offered for sale to students on school premises at all times from all sources, including cafeterias, school stores, vending machines, fundraisers, and any other sources of food sales to students. Districts may choose to allow or not allow food exemptions.

Criteria for food exemptions

Foods that do not comply with the CNS can only be sold to students on school premises if the local board of education or governing authority votes to allow food exemptions and the following criteria are met: 1) the sale is in connection with an event occurring after the end of the regular school day.
Exemptions for Foods and Beverages in Public Schools

or on the weekend; 2) the sale is at the location of the event; and 3) the foods are not sold from a vending machine or school store.

- An “event” is an occurrence that involves more than just a regularly scheduled practice, meeting, or extracurricular activity. For example, soccer games, school plays, and school debates are events, but soccer practices, play rehearsals, and debate team meetings are not.

- The “school day” is the period from midnight before to 30 minutes after the end of the official school day.

- “Location” means where the event is being held, and must be the same place as the food sales. For example, foods can be sold on the side of the soccer field during a soccer game, but not in the school cafeteria while a game is played on the soccer field.

Districts may choose to exempt all foods that do not comply with the CNS or may choose to exempt only certain foods or categories of foods. For example, chips and cookies are exempt, but candy is not. Districts may also choose to exempt all events or only certain events. For example, sales of exempted foods are allowed only at sports games, concerts, and theatre productions. If the district exempts only specific events and foods, these events and foods must be listed in the meeting minutes from the board of education or governing authority’s exemption vote.

If the board of education or governing authority chooses to make food exemptions part of the district’s school wellness policy, these exemptions remain in effect until the board of education or governing authority changes or rescinds the policy. However, as required by C.G.S. Section 10-215f, the board of education or governing authority must still vote annually on whether the district will follow the CNS and whether the district will allow food exemptions. This is part of the annual HFC Statement.

Sample language for food exemptions

The exemption language below applies to foods that the district will exclude from complying with the CNS, provided all sales comply with the three criteria for food exemptions required by C.G.S. Section 10-215f. Districts may make this language specific to certain events and foods by listing the specific events and foods that will be exempted.

- **Food exemptions:** The board of education will allow the sale to students of food items that do not meet the Connecticut Nutrition Standards provided that the following conditions are met: 1) the sale is in connection with an event occurring after the end of the regular school day or on the weekend; 2) the sale is at the
Exemptions for Foods and Beverages in Public Schools

location of the event; and 3) the food items are not sold from a vending machine or school store. An “event” is an occurrence that involves more than just a regularly scheduled practice, meeting or extracurricular activity. The “school day” is the period from midnight before to 30 minutes after the end of the official school day. “Location” means where the event is being held, and must be the same place as the food sales.

The board of education or governing authority’s motion and meeting minutes for food exemptions should include the specific criteria for food exemptions required by C.G.S. Section 10-215f, as indicated in “Food exemptions” above.

Beverages

The state beverage requirements of C.G.S. Section 10-221q apply to all public schools, regardless of whether they choose the healthy food option of HFC or participate in the USDA’s school nutrition programs. C.G.S. Section 10-221q allows only five categories of beverages to be sold to students in public schools. For information on allowable beverages, see the CSDE’s handout, Allowable Beverages in Connecticut Public Schools.

C.G.S. Section 10-221q applies to all beverages sold as part of school meals and separately from school meals anywhere on school premises, including cafeterias, school stores, vending machines, fundraisers, and any other sources of beverage sales to students. Districts may choose to allow or not allow beverage exemptions. Districts that do not have a beverage exemption can never sell beverages that do not comply with C.G.S. Section 10-221q.

Beverage exemptions are not part of the annual HFC Statement, which applies only to food sales. If the district chooses to allow beverage exemptions, the CSDE recommends that the board of education or governing authority conducts the vote on beverage exemptions at the same time as the vote on HFC participation and food exemptions.

Criteria for beverage exemptions

Beverages that do not meet the requirements of C.G.S. Section 10-221q can only be sold to students on school premises if the local board of education or governing authority votes to allow beverage exemptions and the following criteria are met: 1) the sale is in connection with an event occurring after the end of the regular school day or on the weekend; 2) the sale is at the location of the event; and 3) the beverages are not sold from a vending machine or school store.

• An “event” is an occurrence that involves more than just a regularly scheduled practice, meeting, or extracurricular activity. For example, soccer games, school plays, and school debates are events, but soccer practices, play rehearsals, and debate team meetings are not.
Exemptions for Foods and Beverages in Public Schools

- The “school day” is the period from midnight before to 30 minutes after the end of the official school day.

- “Location” means where the event is being held, and must be the same place as the beverage sales. For example, beverages can be sold on the side of the soccer field during a soccer game, but not in the school cafeteria while a game is played on the soccer field.

Districts may choose to exempt all beverages that do not comply with the requirements of C.G.S. Section 10-221q or may choose to exempt only certain beverages or categories of beverages. For example, lemonade and sports drinks are exempt, but soda and energy drinks are not. Districts may also choose exempt all events or only certain events. For example, sales of exempted beverages are allowed only at sports games, concerts, and theatre productions.

If the district exempts only specific events and beverages, these events and beverages must be listed in the meeting minutes from the board of education or governing authority’s exemption vote. If the board of education or governing authority chooses to make beverage exemptions part of the district’s school wellness policy, they remain in effect until the board of education or governing authority changes or rescinds the policy.

Sample language for beverage exemptions

The exemption language below applies to beverages that the district will exclude from complying with C.G.S. Section 10-221q, provided all sales comply with the three criteria for beverage exemptions required by C.G.S. Section 10-221q.

Districts may make this language specific to certain events and beverages by listing the specific events and beverages that will be exempted.

- **Beverage exemptions:** The board of education will allow the sale to students of beverages not listed in Section 10-221q of the Connecticut General Statutes provided that the following conditions are met: 1) the sale is in connection with an event occurring after the end of the regular school day or on the weekend, 2) the sale is at the location of the event, and 3) the beverages are not sold from a vending machine or school store. The board of education or governing authority’s motion and meeting minutes for beverage exemptions should include the specific criteria for beverage exemptions required by C.G.S. Section 10-221q, as indicated in “Beverage exemptions” above.

Paid Lunch Equity: Guidance for School Year 2019-20

Attached is the U.S. Department of Agriculture’s (USDA) memo SP 27-2019, which outlines the procedures for using the Paid Lunch Equity (PLE) tool for school year (SY) 2019-20 only. For SY 2019-20, a local educational agency (LEA) which, on a weighted average, charged less than the target weighted average price of $3.00 for paid lunches in SY 2018-19, are required to adjust their weighted average lunch price or add non-Federal funds to the non-profit school food service account. However, if a LEA has a positive or zero balance in its nonprofit school food service account as of December 31, 2018, USDA is allowing the LEA the discretion to complete the necessary steps to determine their target SY 2019-20 paid lunch price, and may be exempt from the PLE requirements.

To be exempted, the LEA must submit an exemption request to the Connecticut State Department of Education (CSDE) no later than June 30, 2019. If a LEA has a positive balance in the nonprofit school food service account and does not request an exemption by this date, the LEA will be required to establish prices for paid lunches according to the PLE provisions. This includes completing the attached SY 2019-20 PLE tool.

The exemption request must be signed by one of the two authorized signers and must include written assurances that the LEA had a positive or zero balance in the nonprofit school food service account as of December 31, 2018. Send exemption requests to the attention of Teri Dandeneau at teri.dandeneau@ct.gov. Note: The CSDE may request to review the LEA’s documentation to support the exemption.

A LEA that has a negative balance in its nonprofit school food service account as of December 31, 2018, will be required to establish prices for paid lunches according to the PLE provisions. This includes completing the attached SY 2019-20 PLE tool.

Note: If the documented weighted average student lunch price was a minimum of $3.00 for SY 2018-19, the LEA is not required to complete the PLE tool or request an exemption for SY 2019-20.

For an overview of these requirements, refer to the chart on the next page: “Determining if a PLE Exemption is Required.”

MEMO CODE: SP 27-2019

SUBJECT: Paid Lunch Equity: Guidance for School Year 2019-20

TO: Regional Directors
Special Nutrition Programs
All Regions

State Directors
Child Nutrition Programs
All States

In Section 760 of the Consolidated Appropriations Act, 2019 (Public Law 116-6) (the Appropriations Act), Congress provides that only school food authorities (SFAs) that had a negative balance in the nonprofit school food service account as of December 31, 2018, shall be required to establish prices for paid lunches according to the Paid Lunch Equity (PLE) provisions in Section 12(p) of the Richard B. Russell National School Lunch Act, 42 U.S.C. 1760(p) and implemented in National School Lunch Program regulations at 7 CFR 210.14(e).

Consistent with the terms of the Appropriations Act, this memorandum provides notice that any SFA with a positive or zero balance in its nonprofit school food service account as of December 31, 2018, is exempt from PLE pricing requirements found at 7 CFR 210.14(e) for school year (SY) 2019-20. SFAs that had a negative balance in the nonprofit school food service account as of December 31, 2018, must follow PLE requirements when establishing their prices for paid lunches in SY 2019-20.

Because the Appropriations Act affects one school year only, FNS recommends that State agencies maintain documentation that includes which SFAs are using the PLE exemption for SY 2019-20 in order to demonstrate State agency oversight of this provision. This documentation should include a record that each SFA implementing the exemption had a positive or zero balance in the nonprofit school food service account as of December 31, 2018. This documentation may be reviewed by FNS upon request and during a Management Evaluation.

While SFAs that meet the Appropriations Act’s criteria are exempt from the PLE pricing requirements, all State agencies and SFAs must continue to report paid lunch prices as required in regulations at 7 CFR 210.14(e)(7). SFAs still maintain the discretion to complete the steps necessary to determine their target SY 2019-20 paid lunch price, consistent with Program regulations at 7 CFR 210.14(e), and adjust their paid
meal prices accordingly. Please note, the SY 2019-20 PLE tool and instructions will be provided in a separate communication.

State agencies are reminded to distribute this memorandum to Program operators. Program operators should direct any questions concerning this guidance to their State agency. State agencies with questions should contact the appropriate FNS Regional Office.
