E. PUBLIC COMMENTS
Mr. Tom Stringfellow, 183 Hillstown Road, spoke about the 1839 Amistad trial in New Haven and recommended a book on the topic. He spoke about the Transcontinental Railroad of 1869, as well as Women’s History Month, suggesting several books and articles on the topics. Last, Mr. Stringfellow recommended a book Why Gender Matters and magazine articles about racism.

Ms. Susan Stepanski, 83 East Eldridge Street, noted she is a teacher at Illing Middle School. She was speaking tonight on the topic of the proposed reduction of Instructional Supplies of $15 per pupil. Ms. Stepanski was speaking on behalf of the Family Consumer Science and Unified Arts Departments, where they spend much of their Instructional Supply money on consumables, such as thread, material, food, etc. These classes are all “hands-on” and to reduce more money from those programs impacts them more severely than it does an academic area. They have already reduced their budgets to the bare minimum. Ms. Stepanski wanted the board members to be aware, as they write the budget, what the impact of their decisions are on all the areas that make Manchester great, and these types of classes are something we are proud of that will suffer if the Instructional Supply line is cut.

F. SUPERINTENDENT’S REPORT – PART I
F.1. **District Assessments - STEAM**

**Mr. Geary** noted that at the last Curriculum & Instruction Committee meeting, Ms. Ghetia and Ms. Burns gave a presentation. At the last Board meeting Ms. Burns repeated her presentation and this evening Ms. Ghetia will present her information. Ms. Ghetia shared grade 1 and 3 unit assessments and scoring with the Board. She also reminded everyone that the district Science Fair is being held this Saturday, March 30th, at MHS at 9:00 am and invited all to attend.

After her presentation, Dr. Radikas noticed that in unit 1 one of the questions asked the student to “circle all that apply” indicating the possibility of more than one answer, and in unit 2 the question listed “equations” (plural) and if a student is not paying attention they may stop at the first correct answer and lose credit for not listing all the answers that work.

**Mr. Pattacini** noted that as adults we all know how to read, how to do math, etc. and we forget how hard it is to learn these concepts. He felt it was powerful to unpack and learn about what each student may struggle with in these concepts.

F.2. **Manchester High School Update on RISE and Barr**

**Mr. Geary** asked Principal Miner to update us on these private partnerships. Ms. Miner noted we pursue private partnerships that align with the work of the Board and are connected to our school improvement plan.

Ms. Miner gave us an overview of RISE, which was first looked at in East Hartford. The five strategies they focus on include:

- Summer Transition Programs - to engage middle school in data review; to have 20% of rising 9th graders involved by 2020; and a summer bridge program. These are things we currently do but it would provide a way to increase the number of students that are able to access this program from the approximately 35 we now serve.
- On-Track Data Teams - weekly time in team meetings; PD related to on-track strategies; access to the RISE data tool which allows the user to see attendance, grades and discipline in one screen.
- On-Track Coordinators/On-Track Conferences - work with RISE to secure two on-track coordinators to support a caseload of 60 freshman each; engage all 9th graders in on-track conferences at least twice in the 19-20 school year.
- College & Career Support - collaborative review of college and career strategies with rise staff.
- Educator-inspired Innovations - support educators in pursuing small ($500-1000) RISE Innovation Fund grants.

Mr. Scappaticci thought this was all very exciting. He noted we will be the second cohort to RISE and wondered about the success with the first cohort. Ms. Miner noted the data is impressive with the first cohort, definitely a growth pattern. Ms. Miner informed us that RISE is funded by the Dalio Foundation, a philanthropic foundation.

Mr. Scappaticci wondered if the students get to see their profile and the effect of their daily actions on their achievement. Ms. Miner noted they would be able to access that, at first with adult support. Mr. Scappaticci inquired about the summer bridge program. Ms. Miner stated there is a three and a half week program that offers academic support, leadership, building orientation, and key adult interaction. Those 35 students that were served this year as at-risk 8th graders already knew the building and felt confident on their first day of 9th grade. To be able to double that number of students will be great.

Ms. Maio wondered if all data points on the dashboard are currently in different programs. Ms. Miner noted many of the items can be accessed in Eschool, but in different areas of that program, while some are in different programs, such as SWIPE, Naviance, and Google. RISE will pull all behavior, attendance and grades and color code it and make it trackable. Ms. Maio was impressed and also mentioned that she attended the recent 8th grade open house with her child and thought it was a great, informative evening.

Mr. Conyers asked about the mentor aspect and wondered if it was similar to Power Hour or Flex. Ms. Miner noted Mentor Monday, which is an hour, has focused on resume writing.
**Ms. Miner** reviewed the Barr Grant, which has been a planning grant the last 18 months.

- Revise external credit policy;
- Expand community and business partnerships;
- Integrate community projects into the curriculum;
- Revise freshman seminar;
- Develop student resource profiles and provide feedback;
- Explore alternate scheduling;
- Improve Academy selection process
- Plus, expand extended learning.

Ms. Miner noted the proposal for the implementation grant that would expand all the above.

**Mr. Geary** noted the RISE grant is $200-250,000 per year and the Barr Grant is $500,000 over three years.

**Mr. Pattacini** noted that every year we look at the work being done at the high school and it is amazing. If we keep at it we will have great success. These innovative ideas are allowing students to see their strengths and see how their daily decisions impact their lives. It is powerful. Mr. Pattacini is excited about this work.

**G. UNFINISHED BUSINESS**
None.

**H. NEW BUSINESS**
None.

**I. PUBLIC COMMENTS** (Limited to items on tonight’s agenda)
Mr. Tom Stringfellow, 183 Hillstown Road, supports the Consent Calendar. He also enjoyed the two presentations. He hopes to see a report on the arts in the future. Mr. Stringfellow would like all students to come out well rounded. He recommended the books *How School Works* and *Who You Know*. He feels we need to look at the bigger picture. Mr. Stringfellow also mentioned an article in *TIME* about putting the phone down and talking with teens.
