F. SUPERINTENDENT’S REPORT – PART I

F.1. Fall Data Update
Mr. Geary reviewed that the Directors of STEAM and Humanities, Ms. Burns and Ms. Ghetia, had provided overviews at the last meeting. There is a multi-pronged approach to student learning. This is a challenging time and we need to rethink how we do what we do. Mr. Geary also noted there is no spring data from last year when we moved to virtual learning with no notice. Mr. Geary’s presentation is available to view on the website. The hope is for significantly increased spring learning and plans to fill in the gaps next year.

F.2. Update on COVID-19
Mr. Geary reviewed that the district is currently fully remote until January 8th, returning to buildings on January 11th. He is monitoring community spread. Mr.
Geary noted that he will continue to notify us about quarantines this week as testing has started to take longer to come back, so they are working on last known contacts as quickly as possible.

Mr. Geary stated that we will no longer have snow days unless there are widespread power outages. Any inclement weather will mean remote learning so we are not making up days in June.

Mr. Geary feels the Board should be proud of the mitigation strategies in place in schools, including shields, masks, tents, etc. The need to go remote was not about transmission in schools, but about staffing issues due to quarantining and the turn around for testing.

A survey of students shows that students of color are disproportionately impacted by the pandemic.

**Mr. Gundersen** wondered if some of these responsibilities were pre-Covid or if they were additional obligations. Mr. Geary did not ask what had increased in the survey, only what is. He speculates that even though some duties may have existed before (such as caring for younger siblings) that the responsibilities are increased at this time.

**Mr. Hughes** read an article recently that talked about New Jersey holding night classes for K and 1st grade, as it was better for parents to be able to help their children. Mr. Geary also read that article and agreed it is hard for little ones in grades K-1-2 to participate in remote learning without parental attention.

**Ms. Patterson** noted that there is less structure and it is harder to manage time during remote learning. She mentioned the ability to catch up on work over the weekend, when parents may be able to support learning better. This is balanced by the need for a break. Flexibility is the key.

**Mr. Thames** encourages his grandson to continue to rise at the same time and get ready for school as normal, even though we are home.
Mr. Geary expressed his appreciation of the Board. This has been an extremely challenging situation, especially going fully remote.

G. UNFINISHED BUSINESS
None.

H. NEW BUSINESS
The Superintendent submits to the Board of Education a Waiver of Competitive Bidding for the installation of reflective vinyl characters on the outside surfaces of Manchester High School.

Mr. Geary explained that this bid waiver requires the signature of five Board members, not a vote. He reviewed this bid waiver is about the vinyl characters on the outside of windows in school buildings for first responders. We want the numbers on all buildings to look the same, so we want to use the same company that has already outfitted several buildings in the district. Five members will sign, either at Central Office or a courier will bring the document to their homes.

I. PUBLIC COMMENTS (Limited to items on tonight’s agenda)
None.

J. COMMUNICATIONS
None.
